IC-7000 Indoor Cycle Safety Stops

- When assembling the IC7000 Indoor Cycle install **front post** and **seat post** safety stop bolts under frame so they are not shown on top of posts.

- Installed incorrectly

- The internal part the safety stops (bolt heads) hit under the post.

- Installed correctly

*Failure to install correctly, end plastics will break and user has potential of injury. These end caps are not covered under warranty due to incorrect assembly.*
